

Career Development in China – join a winning team!

The **SKF Group** is one of the leading global suppliers of products, solutions and services in the area comprising rolling bearings, seals, mechatronics, services and lubrication systems. SKF was founded in 1907 in Sweden. Today it has 120 manufacturing sites distributed all over the world and its own sales companies in 70 countries. It employs more than 42.000 people globally.

SKF opened the first branch office in **China** in 1916 and has now, besides the Holding company in Shanghai, 10 manufacturing sites, and a few different sales organizations with 19 sales offices all over China. SKF has since several years a dramatic growth record in China and with extensive investments and development activities, the growth is expected to continue and strengthen the position as the market leader even further!

International Trainee Program

Now **Chinese University students in Europe**, who plan to return to China, can join a world leading company and contribute to further growth and operational excellence!

SKF is now launching an **International Trainee Program** to invite high potentials to join the China talent pool. In particular, we are looking for trainees in the following areas:

- Application engineering
- Manufacturing
- Process engineering
- Quality
- Supply Chain

Successful candidates will go through an international assignment from 18 to 24 months in Europe for competency development and networking. You will get a clear career direction, supported by a tailor-made program with rich contents, a mentor and attention from senior management. After the international assignment, you will be offered a job in one of the business units in China to start your long-term career development in SKF.

Who are we looking for?

- Master degree students studying in Europe, major in mechanical engineering, production, quality or supply chain management
- Determined to station and work in China after the trainee program
- Interest in people and with leadership ambitions
- Share our values – Openness, Teamwork, Empowerment and High Ethics
- Good command of spoken and written English and Chinese

If you would like to take part in the exciting future of SKF China, please send your CV (in English and Chinese) to recruitment.china@skf.com by March 30, 2008. You are most welcome to visit the SKF website www.skf.com to learn more about SKF.
