

Business Consultant for Automotive (m/f)

msg systems is an independent, international company group with autonomous regional companies and subsidiaries and well over 4,000 employees worldwide. We offer a variety of integrated services comprising creative strategic consulting and intelligent IT solutions which produce sustainable added value. We have gained an excellent reputation over the past 30 years as an industry specialist, among others in the fields of Automotive, Financial Services and Insurance, and now rank as Germany's seventh largest IT consulting and system integration company.

The Automotive business unit is currently looking to recruit new outstanding individuals to its team. With our focus on the technical processes and IT systems of the automotive industry, we are in a strong position to do business, while our attractive service ensures we win new orders. We specialize in product data management, quality management, E/E process chain, sales and after sales, vehicle development and production planning.

Our range of services includes consulting across the entire life cycle of the modern business application, based both on standard software (e.g. SAP) and on individual developments (e.g. Java, JEE). We utilize innovative technical solutions, professional methodology and prudent offshoring to be in a position to provide an optimal cost/benefit ratio. Our list of customers includes BMW, Daimler, Audi, Volkswagen and other big-name companies.

We are searching for Business Consultants Automotive in the area of Beijing and/or Shenyang.
